The company **Aquasanita** is one of the most well-known producers of granite sinks on the market. More than 80% of its products are exported to over 30 countries around the world. Aquasanita sinks meet the most demanding requirements for processing and quality of workmanship. Currently, Aquasanita is giving its sinks a new name **HELIKA**. With the idea of **living life at a slower pace** in harmony with nature. Therefore Helika, translated as snail. Helika products are designed to support a slower lifestyle and create a warm, caring atmosphere in kitchens.

A smaller granite kitchen sink with a drainer **Aquasanita Helika Notus 575.5E** has become popular mainly due to its shortened draining area for owners of smaller kitchen units, and in places where space-saving is needed. You can easily choose a chrome or granite faucet for the sink.

The sink is of standard dimensions, so you are not limited in space when washing dishes. Only the storage surface is shortened. The **depth of the sink**, 19 cm, is sufficient for regular washing of large baking sheets or bulky pots. The draining part of the sink is also practical. The sink already has holes for installing a kitchen faucet and eccentric controls.

One of the components of the Notus 575.5E sink is also an **eccentric control**. The automatic drainage closure is a system that allows you to close and open the water drain with a button. An important advantage of this solution is the fact that one movement is enough for immediate unlocking of the water without having to immerse your hands.

The advantage of a granite sink is its **color variability** and the possibility to match it with the rest of the kitchen, easy maintenance, and attractive design. The main advantages include excellent resistance to impact, scratches, and high temperatures.

The sinks by Aquasanita are made of a very high-quality granite material **SILISCANA**, it is a third generation granite known for its strength and durability.

Key features of the kitchen sink AQUASANITA HELIKA NOTUS 575.5E

- small granite sink with drainer and eccentric control
- Notus 575.5E has an extended warranty of 5 years.
- The advantage is the color variability and the possibility to match it with the rest of the kitchen.
- it is a popular choice among customers for smaller kitchen spaces
- sufficiently deep 19cm sink basin
- The sink is intended for top mounting.
- suitable for a cabinet of 45 cm
- made of high-quality materials

Note: Colors may slightly differ in reality compared to the photographs, as granite contains natural fillers and pigments.

Final tip : descale using a one-to-three solution of vinegar. Apply the solution to the surface of the sink, leave for a few minutes and remove with a sponge. A more fragrant way is to rub limescale with a cut lemon.
