The company **Aquasanita** is one of the most well-known producers of granite sinks on the market. More than 80% of its products are exported to over 30 countries around the world. Aquasanita sinks meet the most demanding requirements for processing and quality of workmanship. Currently, Aquasanita is giving its sinks a new name **HELIKA**. With the idea of **living life at a slower pace** in harmony with nature. Therefore Helika, translated as snail. Helika products are designed to support a slower lifestyle and create a warm, caring atmosphere in kitchens.

The granite sink **Aquasanita Helika Nova 460E** is a sink without a draining area. Thanks to this sink, you will save space on the countertop. We recommend this sink especially for smaller kitchens where space-saving is important or where using a dishwasher for washing dishes is preferred. The washing basin is also smaller.

One of the components of the Nova 460E sink equipment is the **eccentric control**. The automatic drainage closure is a system that allows you to close and open the water drainage using a button. An important advantage of this solution is the fact that one movement is enough for instant unlocking of water without having to immerse your hands.

The Aquasanita Nova 460E sink is made of high-quality granite (80% natural crushed stone), guaranteeing excellent mechanical resistance and color fastness even after years. The main advantages of granite sinks include a wide range of colors, so you can match the sink with the rest of your kitchen. The sink is colorfast and has both mechanical and chemical resistance. Easy maintenance.

Aquasanita sinks are made of very high-quality artificial bile material **SILISCANA**, which is a third-generation granite that is known for its strength and durability.

Key features of the kitchen sink AQUASANITA HELIKA NOVA 460E

- granite sink without a drainboard, with eccentric control
- Nova 460E has an extended warranty of 5 years.
- The advantage is the color variability and the possibility to match it with the rest of the kitchen.
- it is a popular choice among customers for smaller kitchen spaces
- sufficiently deep 20 cm sink basin
- The sink is intended for top mounting.
- suitable for a cabinet of 45 cm
- made of high-quality materials

Note: Colors may slightly differ in reality compared to the photographs, as granite contains natural fillers and pigments.

Final tip : descale using a one-to-three solution of vinegar. Apply the solution to the surface of the sink, leave for a few minutes and remove with a sponge. A more fragrant way is to rub limescale with a cut lemon.

Parts of the packaging:
