The company **Aquasanita** is one of the most well-known producers of granite sinks on the market. More than 80% of its products are exported to over 30 countries around the world. Aquasanita sinks meet the most demanding requirements for processing and quality of workmanship. Currently, Aquasanita is giving its sinks a new name **HELIKA**. With the idea of **living life at a slower pace** in harmony with nature. Therefore Helika, translated as snail. Helika products are designed to support a slower lifestyle and create a warm, caring atmosphere in kitchens.

The corner granite sink **Aquasanita Helika Papillon 945.10ER** is a sink that will catch your attention with its unconventional shape. If you are looking for originality and want to maximize space in the kitchen, then the Papillon sink is the right choice for you! With its shape, the Papillon sink fits both into a rustic kitchen line and into any modern kitchen.

Like most corner sinks, the Papillon 945.10ER has a smaller basin on the right side and a storage area on the left. The main basin is designed in a non-traditional round shape that will **catch the attention of many visitors**. The large main basin (with a depth of 19 cm) comfortably accommodates the necessary dishes, while the smaller basin can be used for rinsing vegetables, fruits, defrosting meat, or storing smaller containers. Additionally, the sink features a storage area.

The Aquasanita Papillon 945.10ER kitchen sink is designed for **top mounting**, with a minimum cabinet width of 90 cm. The sink is equipped with an eccentric control. Automatic drainage closure is a system that allows you to close and open the water drain with a button. An important advantage of this solution is that one movement is enough for immediate unlocking of the water without having to immerse your hands.

The advantage of granite sinks is their unconventional design, practical features, easy maintenance, and **color variability**. This means the possibility of matching them with the rest of the kitchen. The surface of the sink is homogeneous and smooth, making it easy to keep clean.

The sinks by Aquasanita are made of a very high-quality granite material **SILISCANA**, it is a third generation granite known for its strength and durability.

Key features of the AQUASANITA HELIKA PAPILLON 945.10ER kitchen sink

- corner granite sink with a practical drainer, second basin and eccentric control
- in color: white, black, beige and gray
- The Papillon 945.10ER comes with an extended 5-year warranty.
- unconventional shape and originality of the sink for maximum utilization of space
- intended not only for rustic kitchens, but also for modern interiors
- The ideal depth of the bathtub is 19 cm.
- automatic drainage closure - the eccentric is a part of the sink equipment
- granite sink designed for cabinet of 90 cm
- The sink is resistant to scratching and high temperatures.
- kitchen sink intended for top mount installation
- The extremely smooth surface of the sink guarantees easy maintenance and cleanliness.

Note: *Colors may slightly differ in reality compared to the photographs, as granite contains natural fillers and pigments.*

Final tip : descale using a one-to-three solution of vinegar. Apply the solution to the surface of the sink, leave for a few minutes and remove with a sponge. A more fragrant way is to rub limescale with a cut lemon.
