The technical single-chamber sink **Deante Stainless Steel 550** is made by the well-known Polish sink manufacturer Deante. Deante has been on the market for over 30 years, representing a guarantee of quality. Deante brand products are called ProEco, which means that they use natural materials for production. The company is also environmentally friendly, using Eco packaging.

The Nerez 550 sink is made of stainless steel (steel 340) with a thickness of 0.8 mm. The sink is designed for technical rooms, garages, cellar spaces, cleaning rooms, laundries, or for manufacturing plants.

The stainless steel Technical Sink 550 can be **mounted on the wall**, so a worktop is not necessary. The sink has a pre-drilled hole for the faucet. Additional holes can be drilled in the sink, for example, for a soap dispenser or a jar.

The Deante Nerez 550 technical sink chamber is resistant to scratches, thermal shock, or **high temperatures (up to 250°C)**. You can safely wash garden tools, pour boiling water, or place warm dishes in the sink. The surface of the chamber does not retain odors, is resistant to all kinds of dirt, and has antiseptic properties.
