# **Donner Set for BASKET over flow connection**

Slouží k napojení přepadu dřezu na košíkovou výpusť (domácnosti)

EAN: 8596220010827

**98 Kč** 81 Kč bez DPH

## **About the product**

The set is intended for household use. It serves for connecting the sink overflow to the drain with the <u>Donner Basket</u>, in case the siphon branch is already used for connecting the dishwasher, washing machine, and the like. When installing the sink basket in a commercial sink, this set is not necessary, as these sinks are not equipped with an overflow.

# **Assembly**

The branch component is simply inserted between the outlet and the siphon. The minimum distance from the bottom of the sink to the center of the waste pipe in the wall is 24 centimeters when using the outlet connection set (when using a standard siphon). The set also includes a rear part for connecting the sink's side overflow, which is usually not necessary to use.

## **Parameters**

#### **Basic parameters**

Warranty: 2 years

**Technical parameters** 

Weight including packaging (kg): 0.1
Width of the packaging (cm): 30
Height of packaging (cm): 5
Depth of packaging (cm): 22
