179 Kč bez DPH

The siphon is a **trap** between the sink drain and the sewer. Installing a siphon is necessary for all garbage disposals. In some cases, the existing siphon can be used during the garbage disposal installation (if already installed), but usually a new siphon that meets all installation requirements - functionality, versatility, and matching thread rise with the waste pipe of the garbage disposal - needs to be used.

Parameters

Dimensions, weight, packaging

Warranty:	2
Width of the packaging (cm):	20
Height of packaging (cm):	Unfortunately, you haven't provided any Czech text to translate. Please provide the text you would like to be translated.
Depth of packaging (cm):	26
Weight including packaging (kg):	0.4
Product TARIC code:	39229000
