The **Eisl Unicorn** is a lever mixer tap with a spray made of high-quality stainless steel. This kitchen faucet is equipped with the **Eco-Click** feature. When you lift the lever, the water starts to flow at a lower rate first, which is sufficient for comfortable dishwashing. If you need a stronger flow of water, you will need to lift the lever more, accompanied by a clicking sound. Thanks to this function, the Eisl Unicorn sink mixer tap can save up to 50% of water compared to a standard lever tap.

The battery is equipped with scald protection (tested by TÜV). In the Eisl Unicorn battery head, there is a built-in flexible **telescopic shower** with a length of approximately 50 cm. The battery is fitted with a high-quality ceramic cartridge and aerator.

We offer this battery in a variety of colors.

- Shiny chrome

Key features of the Eisl Unicorn kitchen faucet

- Lever sink faucet made of high-quality stainless steel
- Telescopic shower (approx. 50 cm)
- The battery is equipped with a ceramic cartridge and an aerator.
