The brand **Granisil** represents a mark of high quality and luxurious design. Granisil sinks contain over 80% granite and quartz. Thanks to the presence of natural stone, it is a very durable material. Granisil is completely safe for contact with food.

The **Granisil Gradiz 765.0 granite kitchen sink** by Granisil is an ideal solution for most common kitchens. It is a perfect choice for cooking enthusiasts. The Gradiz 765.0 kitchen sink with a long drainage area provides greater convenience and expands the workspace. The drainer is efficiently shaped with grooves that facilitate water flow into the sink. Additionally, the surface also serves for drying individual dishes.

It is possible to drill holes according to customer's request in the Gradiz 765.0 sink, for example, a hole for installing a kitchen faucet or for an inset soap dispenser, or for a button to control the kitchen waste disposer. The kitchen sink has an overflow, which protects the sink from potential overflow.

The package of the sink includes a **space-saving siphon** that saves space under the sink in the cabinet. Thanks to this, you can place, for example, a bin for sorted waste under the sink. The included siphon also has the option of being connected to a dishwasher or washing machine.

The **innovative NANO Granite technology** is used in production, providing a strong molecular structure and a perfectly smooth surface of the sink that is easy to clean. Granisil brand kitchen sinks are resistant to high temperatures, impacts, thermal shocks, scratches, and stains. Granisil sinks are made from the highest quality mixture of granite aggregate (80%) and resin (20%).

Key features of the kitchen sink GRANISIL GRADIZ 765.0

- granite kitchen sink in black with a drip tray
- Gradiz 765.0 comes with an extended 10-year warranty.

- new highly sought-after model of a sink
- sufficiently deep basin 18.5 cm
- The sink is intended for top mounting.
