The brand **Granisil** has expanded its product range with granite flower pots - in a wide range of colors, different shapes, and sizes. Granisil flower pots provide comfort and beautiful design for plant growers.

Give your plants and your home a refresh with our new granite flower pots. The high-quality granite flower pot **KUBI 30 cm** is suitable for both indoor and outdoor use. The geometric, minimalist, and elegant shape makes the flower pot a decoration for the interior or garden.

Flowerpots Granisil are **100% frost-resistant**, meaning they can be placed all year round on the terrace, balcony, or by the entrance doors. Where you can place various flowers, herbs, or decorations for different seasons and holidays.

The advantage of granite flower pots is their **wide range of colors** (anthracite, black, white, gray, and beige), making it easy to match them with the surrounding area, such as garden furniture on the terrace, the flooring around the pool, or the color of the front door. They will perfectly fit into any interior or exterior.

As growers of ornamental plants, you will surely appreciate the weight of the flower pot. The Kubi flower pot, 30 cm in size, weighs 12 kg. Therefore, the flower pot will not tip over even in strong gusts of wind. For outdoor use, the flower pots are equipped with a so-called **drain hole for water drainage**. Conversely, when used for arrangements indoors, they are supplied with a sealing plug.

Key features of the granite planter GRANISIL KUBI 30 cm

- high-quality granite flowerpot in a wide range of colors - gray, white, black, beige, and anthracite
- geometric, minimalist, elegant shape
- 100% frost-resistant
- for indoor and outdoor use
- equipped with a drainage opening and a sealing plug

Note! When installing a flower pot outside, we recommend removing the sealing plug. This will prevent the plants from waterlogging (water will simply drain out) and at the same time prevent damage to the flower pot that could occur if the water inside froze.

Parts of the packaging:

- sealing plug

Parameters

Basic parameters

Warranty:	2
