The **Sink drain** made by the leading Czech manufacturer of kitchen faucets and accessories, **RAV-Slezák**, guarantees perfect quality and craftsmanship.

We offer a sink drain in two color options: matte black and antique brass. This allows you to perfectly match the kitchen faucet of the same brand and the sink drain. The entire washing center will appear as a complete set in the chosen color.

The sink drain is manually operated using a central button. When pressed, it closes the drain, when pulled out, it functions as a strainer (the strainer can be fully removed).

Note: The drain does not have an overflow. You can purchase [an overflow set](#) or use the inlet of the

siphon branch.

Double bottom ceramic sinks with integrated overflow can be secured up to a maximum thickness of 1.5 cm.

We do not guarantee compatibility with the accessories of the given sink. In some cases, it is necessary to purchase suitable components for installation (transition parts, etc.).

Parameters

In general

Warranty:	2 years
Control:	Manual
Average discharge.:	9 cm
