The European premium brand **Villeroy & Boch** has its origins dating back to 1748. With its products, it is represented in over 125 countries worldwide. Villeroy & Boch is an innovative company with a long tradition - it is one of the most important brands in Germany, Europe, and the world. As a ceramics manufacturer, it has evolved into an international lifestyle brand.

Luxurious ceramic single sink **Villeroy & Boch Farmhouse 595**. Standalone modular sink designed for a minimum 60 cm cabinet. This sink fits perfectly into rustic kitchens. However, it also stands out in modern style.

The Farmhouse 595 sink is deep enough (18 cm) for comfortable washing of even large dishes. The kitchen sink belongs to the category of modular sinks. The installation of the sink is recommended mainly on non-absorbent material countertops. In the case of a solid surface countertop, the sink is installed underneath. In the case of a wooden countertop, we recommend the sink to slightly overlap the surface to prevent contact with water.

The advantage of a ceramic sink is its **easy maintenance, color stability**. Long-term exposure to sunlight or even aggressive materials will not change the color or surface of the sink. The surface of the Villeroy & Boch Siluet 900.0 sink is treated with the **CeramicPlus** system, meaning that the sealed non-porous ceramic surface prevents dirt, cooking waste, and unsightly limescale from sticking to your kitchen sink. The time spent in the kitchen will thus become a real pleasure.

Key features of the VILLEROY & BOCH FARMHOUSE 595 (Farmhouse 60X 636001) kitchen sink

- white ceramic sink with a visible front panel
- Farmhouse 595 comes with an extended 5-year warranty.
- separate modular sink
- intended for a 60 cm cabinet

- sufficiently deep (18 cm) and spacious basin for comfortable dishwashing
- permanently colored
- Original and luxurious design
- high-quality ceramic sink made from 100% natural materials
- traditional artisanal processing supported by 270 years of ceramic experience
- thanks to the CeramicPlus treatment, it is easy to maintain cleanliness
- The back side of the sink is unglazed, reach 50 cm.

A ceramic sink is fired in kilns and the glaze is applied by hand, making each piece unique. It is necessary to take into account a tolerance of +/- 1-1.5 cm in dimensions. We recommend having the sink physically available for the realization of the kitchen counter.

Parts of the packaging:

- Sifon
- Release.
- Robbery
